

[OpenSIPStack] Error OpenSIPStack ...

Guest Hi,

When I use the lib file who as generate by the opensipstack porject, I have this error...

Catastrophic failure, PProcess::Current() = NULL!!

Must I initiate something before creating a SoftPhoneInterface?

Thx,

Jeremy Counet.

Guest **1. Re: [OpenSIPStack] Error OpenSIPStack** May 11, 2007 10:19 AM

OpenSIPStack requires that PProcess is created first before any other objects. If you are using it in an MFC project you may do this by declaring PProcess as a member variable of CWinApp

```
class COSSPhoneMFCApp : public CWinApp
```

```
{
```

```
public:
```

```
/* OpenSIPStack Start */
```

```
class PWLibProcess : public PProcess {
```

```
PClassInfo(PWLibProcess, PProcess);
```

```
void Main() { }
```

```
} pwlibProcess;
```

```
/* OpenSIPStack End */
```

If you are using OpenSIPStack in a console application, make sure you use PProcess::Main() instead of creating your own int main() method

[OpenSIPStack] Error OpenSIPStack ...

```
class YourProcess : public PProcess
{
public:
PCLASSINFO( YourProcess , PProcess );
void Main()
{
/// your code here
}
};

PCREATE_PROCESS( YourProcess );
```

The PCREATE_PROCESS creates the int main() for you.

Guest 2. Re: **[OpenSIPStack] Error OpenSIPStack** May 11, 2007 7:34 PM

 in response to: [Guest](#) It wont let me do that. It says I have an old version of GTK installed.

Is there a way to remove the old GTK? I can't seem to find it as a previously installed program.

 in response to: [Guest](#)

hi.

i add example code to project but i get more error in the ptlib.plz help me for solve errors.thanks.

i add:

```
// EitsCoPhone.h : main header file for the PROJECT_NAME application
//
#pragma once
#ifdef __AFXWIN_H__
#error "include 'stdafx.h' before including this file for PCH"
#endif
#include "resource.h" // main symbols
// CEitsCoPhoneApp:
// See EitsCoPhone.cpp for the implementation of this class
//
class CEitsCoPhoneApp : public CWinApp
{
public:
class PWLibProcess : public PProcess
{
PCLASSINFO(PWLibProcess, PProcess);
void Main() { }
} pwlibProcess;
CEitsCoPhoneApp();
// Overrides
public:
virtual BOOL InitInstance();
// Implementation
DECLARE_MESSAGE_MAP()
```

```
};

[OpenSIPStack] Error OpenSIPStack ...

[joegen](#) 539 posts since

Apr 28, 2007 4. **Re: [OpenSIPStack] Error OpenSIPStack** Dec 11, 2009 6:35 AM

👤 in response to: [zahra_d84](#) It looks like your opensipstack project is seeing multiple copies of ptlib. OpenSIPStack has ptlib built-in. If you have another copy of ptlib in you box, make sure you ignore it when running configure.
